

DocuPunch® MINI Automatic Tabletop Punch Machine

The James Burn DocuPunch® MINI brings you the ease and power of the DocuPunch® PLUS, but in a desktop unit with a lower price point for smaller shops or those who don't need all the features of the PLUS. Manufactured specifically for the copy center environment and print-on-demand market, the DocuPunch® MINI is simple to operate and requires no special training. Simply load the paper, press start, and walk away. The top-of-pile positive sheet pickup helps prevent static, and, when combined with the inner joggers, creates perfect registration and hole placement. It works well with sheet sizes from 8 ½" x 5 ½" up to 11 ⅝" x 11 ⅝", and paper stocks from 20 lb. bond to 110 lb. index. The DocuPunch® MINI keeps sheets in perfect pre-collated order, so mixed sheet and tabbed sets are ready to bind without any re-ordering of pages. The control panel has simple icon buttons that are easy to navigate. Changing the dies is completed in seconds, and a variety of DocuPunch® MINI dies are available. Place on a stable work surface, or mount to the optional stand. The James Burn DocuPunch® MINI is a revolution, offering the speed and convenience of automatic punching in a compact unit that can fit into any environment. If you have any questions, or are ready to speak to our James Burn experts, call (866)537-2244 or email info@binding101.com.
