

EB Series Electric Wire Closers

With the James Burn EB Series electric wire closers, your higher volume print shop or bindery office can quickly and efficiently close Wire-O® bindings into perfect circles around your documents, without having to fiddle with manual machines. They are high quality machines, built with the highest quality manufacturing for rugged daily use. The angle of the table is ideal for perfect positioning of the wire into the closer, so you are assured a perfectly closed wire, every time. Just set the wire size with the knob on the side of the machine, place your document with wire into the opening, and tap the foot pedal. This hands-free activation leaves both hands free to work with your documents, and can speed up the binding process. Changing between sizes is fast by just turning that knob again. The EB Series wire closers can handle the full range of Wire-O® sizes from 3/16" up to 1 ¼", making it very versatile. You can also rest easy knowing that your operators are safe, as a safety sensor will prevent the machine from closing if anything larger than a book block (such as a hand) is entered between the clamps.

Specifications:

Model	EB3500	EB5000	EB7000
Item #	04JBEB3500	04JBEB5000	04JBEB7000
Binding Edge	14"	19 ½"	27 ½"
Manufacturer	James Burn	James Burn	James Burn
Function	Wire Closing	Wire Closing	Wire Closing

Key Features:

- Simple Setup & Operation - Turn the knob to set the wire size you need to close, and just turn it again whenever you need to change sizes. No other setup or any specials training is needed. Place the document with wire onto the closing table and between the clamps, and press the foot pedal to activate.
- Versatile - Come in three different models / binding lengths, all of which are capable of binding the full range of Wire-O® binding sizes, including both 3:1 and 2:1 pitch up to 1 ¼".
- Perfect Finishing - Perfectly calibrated clamping mechanism creates a perfectly round closed wire, every time.

Optional Accessories:

- Stand for EB5000 wire closer (Item# 04JBEB5000ST)
- Stand for EB7000 wire closer (Item# 04JBEB7000ST)
- Calendar Hanger Feeder for 10" Max Wire Calendar Hangers (Item# 04JBWIREOHGF)
