

MBM Triumph™ 5560

21 5/8" Automatic Paper Cutter

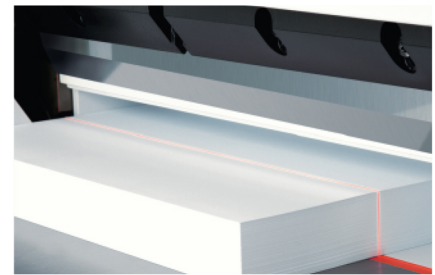

A top-of-the-line, programmable, hydraulic paper cutting machine with a 21 5/8" cutting width, 3 3/4" * cutting capacity, an easy-to-use touch screen control panel with memory, and comprehensive SCS™ safety package.

Large 7" touch screen control panel is convenient & easy to use. Set up the back gauge and exact measurements, or recall past jobs with the large memory storage (99 jobs & 99 steps in each job)

Hydraulic clamp with adjustable pressure from 1,900 to 3,800 psi for use with even fragile prints

German high speed steel knife with swing cut motion ensures the highest level of cutting accuracy & quality

Convenient drop-in tool holder on rear of machine keeps various routine maintenance tools close (including for blade change)

Electronic hand wheel for manual back gauge positioning option

Easy cut blade activation bars require two-hand operation and allow blade & clamp to perform independently

* with false clamp ¹ Width with optional side tables is 64" ² Ship weight with side tables is 1,008 lbs
All technical data is approximate and subject to change without notice © Binding101.

Available with optional side tables to expand the working width an additional 22" (11" on each side)

Free 11 3/4" L x 5" W x 3" H paper blocking tool (jogging block) included

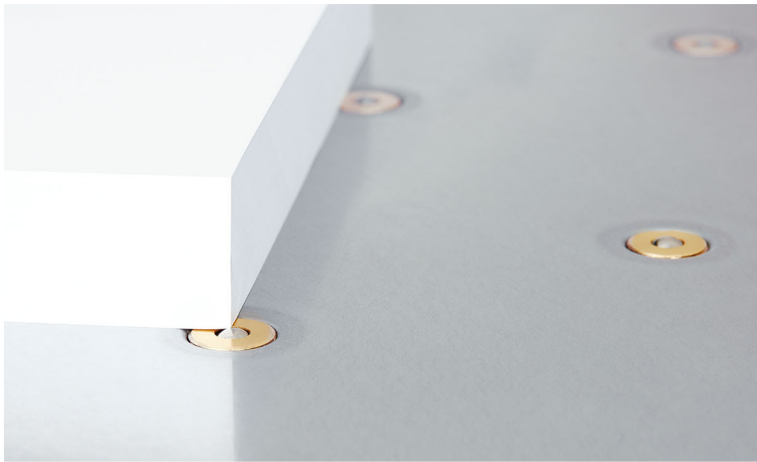

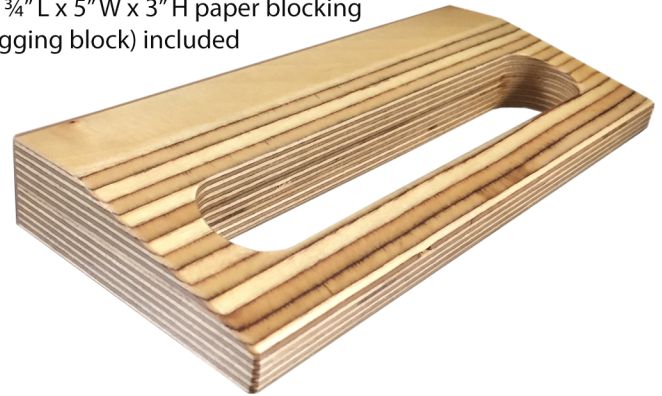

Table includes air assistance, making for smoother and easier paper stack mobility

Specifications

- Cutting Width 21 5/8"
- Cutting Capacity 3 3/4" (3 5/8"*)
- Narrow Cut 1 1/4" (2 3/8"*)
- Length Behind Blade 22 7/16"
- Dimensions 42" W¹ x 55" D x 54" H
- Certifications UL, C UL
- MBM Warranty 1 Year
- Shipping Weight 970 lbs²
- Motor Output 2 Horsepower
- Electrical 115 V, 60 Hz (20 Amp dedicated Line)
